Home Sown Gardens & Field Outdoor Spaces CRC Landscape Redesign

9/19/23

Each year **Home Sown Gardens LLC**, along with **Field Outdoor Spaces**, collects applications from individuals and nonprofit organizations within the Twin Cities metro area. Of those, two projects are selected by a team vote, and completed early in the fall season. This year, CRC was fortunate to be selected as one of the two pro-bono award recipients. As a result, **15 workers** volunteered their day to help redesign the new patio area space of CRC, along with other nearby gardens surrounding the building. We are extremely grateful for their help in making our property so beautiful!
